Architecture & Security

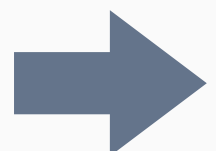

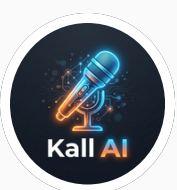

FLAWLESS THEME PERSISTENCE

THEME STATE & URL PARAMETERS

Theme state now lives entirely in the URL query parameters.

- Themes instantly auto-apply on load
- Zero screen flicker on refresh
- Zero reload loops in the frontend
- Perfectly syncs state across iframes

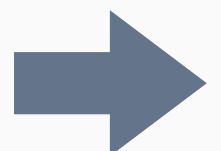

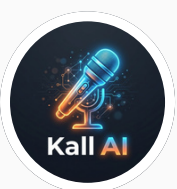

03

EDGE PROTECTION

EDGE LEVEL PROTECTION

Security is not an afterthought. A robust Cloudflare stack deployed:

- Bot Fight Mode drops scraper networks
- Strict rate limiting blocks abuse
- Bad actors get an instant 429 error before touching the server

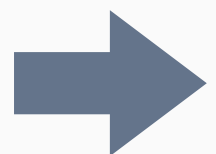

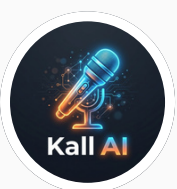

APPLICATION LEVEL SECURITY

THE AUTHENTICATION OVERHAUL

The authentication gate has been completely overhauled:

- Passcodes fully encrypted via bcrypt
- IP lockouts freeze access on failed attempts
- Legacy plaintext fallbacks disabled
- Strict XSS sanitization for AI outputs

BUILT FOR SPEED & SCALE

**"THE ENTIRE STACK IS
OPTIMIZED FOR PERFORMANCE."**

Lightning-fast load times, zero
bottlenecks, and infrastructure that
scales effortlessly under any load.
